For the last twenty-five years the Coroners have never received any sherin fees. Frank J. Hawkes has during that time performed these functions of the Coroners office, and the fees, amounting to about \$1,000 per year, constituted his compensation.

coroners Hanly and Schultze are very much annoyed at the Comptroller's action, and it was said this morning that they proposed to carry the matter at once into the cours.

Under the Code of Civil Procedure, Coroners are endowed with all the powers and privilegos, and are required to exercise the distance of a Sheetiff, in class where that official is the detendant in a logal proceeding.

In all clumities of the staire except this where Coroners are sainfred, they are entitled to the fees collected as a perquisite of office. Here, however, the Consolidation act of 1885 provides that all rees collected by salaried officials, such as the County Clerk, Register and Coroners, must be turned into the City Treasury.

The County Clerk and Register have made such disnocition of their fees, but Deputy Comptreller Storts and this morning that the Cotoners nave that do not so, though they have been called on to act, especially in repletin proceedings against the Sheriff, which are very fillmentals.

Any Coroner can sign his name to the re-turn of the process, which is prepared by Mr. Hawkes, who collects and pockets the fees. Comprious Myers, however, questions the right of the Coroners, under the Consolidation

act, to appoint a deputy to do this work or to keep the fees collected. TO SUPPRESS THE BEANSHOOTER. Brooklyn's Grand Jury Attacks
